This Go Insurance Ultra Leisure Travel Insurance has been designed for Australian residents (and eligible non-permanent residents who have been living in Australia for at least 3 months) who want to be covered against risks associated with travelling (eg trip cancellation, loss or damage to baggage and overseas medical expenses).

The Go Insurance Ultra Leisure Travel Insurance product provides certain flexibility for the traveller to remove unwanted cover options, add optional covers such as snow sports, and choose an excess that suits their requirements.

Notes

Note 1 - Older travellers.
Travellers aged over 75 years at the date of travel are not automatically within the target market. However, we may agree to insure travellers aged over 75 on an individually assessed basis, at our discretion and subject to our agreement before the policy is issued. Where we agree to provide cover, such travellers are considered to be within the target market for this product.

Note 2 - One-way travel.
One-way travel is within the target market where the trip either departs from or ends in Australia (for example, a traveller emigrating from Australia, or a traveller who purchases while already overseas and is returning to Australia). Travel solely between two international points, where no part of the trip involves Australia at either the start or the end of the trip, is not within the target market.

Note 3 - Do not travel destinations and War and Armed Conflict cover.
This product is not designed for travellers who choose to travel to, or remain in, a destination subject to a Do not travel advisory. However, the policy includes a War and Armed Conflict Cover Extension which provides limited cover (Part A automatically, and Part B where selected and the additional premium is paid) where a traveller is unexpectedly caught in war or armed conflict in a country or area that was not subject to an official Australian Government travel warning advising against travel before the traveller travelled to, stayed in or knowingly transited through it. Travellers who may be unexpectedly affected by war or armed conflict in this way are within the target market for that limited cover.
